

ZT-28

Single door magnetic lock

Overview

ZT-28 Single door magnetic lock, adopting the world's leading production and packaging technology, not only the pulling force of the magnetic lock is more than 20% higher than that of similar products, but also the anti-oxidation ability of the magnetic lock surface has reached the international leading level. The products have been sold to more than 80 countries and regions around the world, widely It is used in important places such as airports, subways, banks, prisons, smart buildings, and smart communities to provide users around the world with convenient, fast and intelligent access management locks, which have been widely praised and favored by users.

Product Model

Model	Description
ZT-28	lock body size: 250*47*26mm/ Suction plate size: 180*38*11mm

Features

- 1、High-strength aluminum-gold material, super adsorption;
- 2、Hexagon socket head screw design, safe and anti-theft;
- 3、Signal detection function, feedback normally open normally closed signal;
- 4、Delay adjustment switch.

Product Parameters

Item	Description
lock body size	250*47*26mm
Suction plate size	180*38*11mm
maximum pulling force	280kg(600Lbs)Straight pull
Signal output	No
voltage input	DC12V or DC24V
Working current	12V/480mA 24V/240mA
door type	Wooden doors, glass doors, metal doors, fire doors, etc.
Delayed closing	No
security type	Power off and open the door
product weight	2KG
