

C3 Series

Access controller-iron box

Overview

The iron box adopts 1.2mm cold-rolled plate, which is durable and large in size. The matte black appearance has good non-stick and wear resistance, and protects the iron box from working for a long time. It intelligent warm light LED light solves the problem of no lighting in the maintenance equipment, realizes the opening of the cover to turn on the LED light, and the closing and extinguishing of the LED light, which is energy-saving and environmentally friendly. The iron box power supply supports a max current output of 10A, can supply 8 electric mortise locks at the same time, and can be equipped with an optional battery for emergency power supply to meet the power needs of users to install door locks.

Features

- 1、 Anti-removal switch, post the opening box information to the server;
- 2、 Smart warm LED lights, open the iron box the LED lights will light up , close the iron box the LED lights will turn off;
- 3、 Using 1.2mm cold-rolled board and high-temperature baking paint process, the box is sturdy and durable;
- 4、 Optional battery emergency power supply;
- 5、 High current power supply with 10A, support 8 locks at the same time

Product Parameters

Item	Description
Box size	450*340*90mm
Box material	1.2mm cold-roll board, high-temperature baking paint
ACB	DELIXI, 220V 20A-2P
Power supply	In :100-260CAC,50-65Hz, Out :DC12V±10%,5/10A
Power cord	National standard, length 1.5m, 250V 10A
